Cryogel has been an absolute fantastic product. I am a mural and faux finish artist, I work very long hours, assembling scaffolding, during extremely physical work with trowelling plaster, painting large areas. I go to chiropractor and massage when I can. What gets me through the day is the blue cryogel. I gave some to my daughter, she play competitive soccer, she's 16 and her entire team now shares her tube. I purchase multiple tubes and share with my sister, mother, friend. I order for them and have it shipped to Texas and Oklahoma, plus Arizona.rnrnl can not tell you how fantastic I think this product is. I use it on wrist, neck, jaw (for tmj) shoulders, knees, forearms, and my back. rnrnl spread the information for this product as much as I can. rnrnMy chiropractor gave me a small sample of it about 4 years ago. I am so thankful.rnrnSincerely
Thank you.rnrnNora
